

# The AA<sup>®</sup> Microscope Slides

Your 1st Choice

The AA<sup>®</sup> Microscope Slides are compliance with the ISO 8037/1 international standard in dimensions of 25.25(±0.25) x 75.25(±0.25) mm. Each slide is exclusively processed on the personalized semi-automatic production line at our manufacturers locations, pre-cleaned, examined, environmentally controlled to dry and ready to use.

## THE BRANDS

**CITOGLAS<sup>®</sup>** The CSW series and Super Grade series  
Microscope slides

**CITOPLUS<sup>®</sup>** The Standard Grade and Selected  
Microscope slides

Based on our dedicated research of the applications in the industry and persistent teamwork of R&D and Engineering, any demand of a microscope slide for use in routine laboratory and clinical microbiology can be satisfied with the AA<sup>®</sup> microscope slide family. The application fields include Histology, Pathology, Cytology, Hematology Microbiology, etc..

For a great number of microscope slide specifications, AA<sup>®</sup> provide with different quality choices so as to come out with exact solution to match up with your demands.

- The CSW series microscope slides
- The Super Grade microscope slides
- The Standard Grade microscope slides

All the slides are precisely produced and controlled on our automatic production line and the product quality consistency is highly ensured with our up-to-date engineering abilities as well as strict quality standards.

## SYMBOLS

Slide Category	Edges & Corners	Printer Adaptability	Surface Adhesion Ability
<b>CSW</b> Super White Glass	Cut Edges 90° corners	Printable by SlideMate <sup>®</sup> Slide Printers	Adhesion microscope slides, PCB series
<b>SUPER Grade</b> Super Grade	Ground Edges 90° corners	Printable by Signature <sup>®</sup> Slide Printers	Adhesion microscope slides, PCC series
<b>SUPER Grade</b> Super Grade, interleaved	Ground Edges 45° corners	Printable by etching slide printers	Adhesion microscope slides, PCL series
<b>STAND Class</b> Standard Class	Beveled Edges 45° corners		Adhesion microscope slides, PCI series
<b>STAND Class</b> Standard Class, interleaved			

Should you need any further information about the CITOTEST<sup>®</sup> Microscope Slides, please do not hesitate to consult one of our Distributor in your territory or contact with the CITOTEST team directly at [info@citotest.com](mailto:info@citotest.com) or 0086 25 86216803 / 0086 25 86214676.

## Regular Microscope Slides

Designed for routine experiments where no extra adhesion or no adaptability to auto-writers is required in histology-pathology, hematology, cytology, microbiology and etc, for blood or body liquid tests, frozen tissue section examinations, biological specimen preparations and etc..

## Plain Microscope Slides

Recommended for marking with the conventional labeling system, un-supportive for any direct printing or marking

- Dimensions: 25.0mm×75.0mm
- Pre-cleaned to eliminate debris and improve wettability
- Beveled edges provide utmost safety during manual operations
- Super grade and super white glass meet higher transparency and more uniform thickness requirements
- Standard class is supplied with/without tissue paper interleaved
