

Automatic Digital Refractometer

Model PAD-3000

Features:

- Full automatic measuring, avoid personal error;
- Touch Screen;
- Have the function of temperature display, automatic correction and saving the date;
- Thermostatically control, temperature automatic correction and saving the data(GDB-ZT);
- RS232

Specifications:

Measuring range:	Refractive index ND: 1.3000-1.7000; Brix(BX-TC): 0-100% Brix(BX): 0-95%
Measuring accuracy:	Refractive index ND: +/-0.0002;
Dissolved solids Brix:	+/-0.1%;
Measuring resolution:	Refractive index ND: 0.00001;
Dissolved solids Brix:	0.01%;
Temperature:	
Temperature display range:	0-50 °c
Thermostatical control range:	Room temperature +/-10° C
Weight:	3 kg
Overall dimensions:	330 x 214 x 150 mm
